Twig Templating  
Gulp Build Scripts  
Node Package Manager  
Bower  
Git Version Control  
Sublime Text  
Photoshop  
Illustrator  
Fireworks  
Expression Engine (CMS)  
Craft (CMS)  
WordPress (CMS)  
Vue.js  
PHP/MySQL

## Samples

### butler-plumbing.com

Mobile-first responsive website built in Craft with Twig templates utilizing BEM CSS naming and Susy grids with workflow build via Gulp. I also updated the vue.js form application to adjust available time slots for the schedule form based on time of day.

### coolray.com

Mobile-first responsive website built in ExpressionEngine with a MVVM template architecture, BEM CSS naming and Susy grids with workflow build via Gulp. This site features a reorganized blog system (Help Guides) that's based on category hierarchy so users can more easily find content relevant to them.

### georgebrazilhvac.com & georgebrazilplumbingelectrical.com

Mobile-first responsive sister sites built in ExpressionEngine with a MVVM template architecture, BEM CSS naming and Susy grids with workflow build via Gulp.

### airexpertsnj.com

Desktop-first responsive website built in ExpressionEngine with Susy grids and Gulp workflow. I originally built this site in 2013 and recently went back to convert it to responsive, this required very little refactoring of the HTML which resulted in the project completing ridiculously early and way under budget.

## Work

**Rocket Media** *Web Developer* 2011 - 2016  
Remote work; Front End HTML, CSS/SCSS, Javascript/jQuery and Gulp workflow development. Configure and code backend templates for CMS (Expression Engine, Craft, Wordpress) and static websites.
